Hi Dipangkar,

Thank you for your interest in our CVD diamonds. It was nice speaking with you today. Here is the pricing information you requested:

The size of the diamond is 150-200 microns wide X 2cm long X 500 microns thick. The price of the diamond itself is $40.00 each. We have a $300.00 minimum order.

The metallization process has a $1,500.00 minimum run. If we have the parts metalized for you, the price per part (total) would be:

10 parts	$240.00 each
50 parts	$ 80.00 each
100 parts	$ 60.00 each

If you have someone who can do the metallization for you (for less) that may be more cost effective for a small number of parts.

Please let me know if you have any questions or if I can be of further assistance. Thank you.

Regards,

Ginny
